---

## PROFESSIONAL EXPERIENCE

### Bharat Intern

Web Developer | November, 2023 - March, 2024

- Developed the TravelBuddy website using HTML, CSS and JavaScript.
- Created a user-friendly destination guide, enhancing user engagement.
- Collaborated with a team to implement responsive design, improving mobile accessibility by 30%.

### University Project

E-Braille Learning Device | Final Year Project | August 2022 - December 2022

- Developed an E-Braille learning device using Raspberry Pi 4, Solenoid actuators, and Python programming. Implemented hardware components including a Channel relay, push buttons, and a transformer, while prototyping on a breadboard.
- Collaborated with the team to design and test the system, ensuring functionality and reliability.
